## 4. Canada

### 4.1 Statutory leave

Under the Employment Standards Act, 2000 (Ontario), a birth parent may take up to 17 weeks of pregnancy leave. Parental leave is up to 61 weeks for an employee who took pregnancy leave, and up to 63 weeks for other new parents. Employees apply to Service Canada for EI maternity and parental benefits.

### 4.2 Harbourline top-up

| Parental leave (any parent) | 93% of weekly base salary, including EI | 10 weeks         |

Employees who receive top-up must return to work for at least 6 months after leave, or repay the top-up on a prorated basis.

## 5. United States

Eligible US employees receive up to 12 weeks of paid parental leave at 100% of base salary within 12 months of the birth or placement of a child. Paid parental leave runs concurrently with FMLA leave and with New York Paid Family Leave where applicable. See FMLA Guidance (HR-POL-045).
